***English proficiency for applying UK–SIA license to practice Close Protection**

all applicants attending the Protective Security course must possess a good understanding of spoken and written English. They must be able to speak, read and write the language fluently. This is essential because all students are expected to participate fully in the work of a Close Protection Operative in the UK and because supervised instruction and operational practical exercises can only be conducted if applicants are proficient in English.

- I state that if I do not have a good understanding of spoken and written English, this will or could have an effect on my overall performance and as a result, could potentially lead to a failing grade in the course.
